

# Seventh International Conference on Science & Technology Metrics (STMet 2026)

Bali, Indonesia

Organized by

Universitas Islam Negeri Sunan Kalijaga Yogyakarta, Indonesia & Digital Information Research Labs, India

October 02-04 2026

Conference sessions to be held at Hilton Garden Inn, Bali, Indonesia

## Seventh International Conference on Science & Technology Metrics (STMet 2026)

October 02-04 2026

Bali, Indonesia

Organized by

Universitas Islam Negeri Sunan Kalijaga Yogyakarta, Indonesia and Digital Information Research Labs, India

<https://www.socio.org.uk/stm>

Conference sessions to be held at Hilton Garden Inn Bali, Indonesia - Co-located with Springer Real-Time Intelligent Systems (<https://socio.org.uk/rtis>)

Building metrics is the key to science and technology measurement and translating the measures to work better. The metric is not confined to drawing numbers and analysing. Selecting a metric depends on synthesising multiple directions and evidence-based data, producing scientific and technological evaluation benchmarks and standards, and implementing them with real data to mark a full-fledged system. Quite recently, we have witnessed the emergence of new metrics-based models aiming to reflect the growth of science and technology. The proposed Science and Technology Metrics (STMet 2026) conference concerns how many metrics may involve assessing different aspects of science and technology, which are best expressed using various approaches. Besides the standard conference track and the Doctoral Symposium, STMetrics will host several workshops and tutorials related to the conference's theme. The workshops provide participants with a friendly, interactive atmosphere for presenting novel ideas and discussing their application of metrics in Science and Technology Systems. The tutorials aim to enable the participants to familiarise themselves with theoretical and practical aspects and the application of metrics.

The proposed conference includes invited talks, presentations, tutorials, workshops, and discussions. The STMet has tracks on specialized topics. The STMet addresses the themes below, but is not limited to them.

- Citation-based metrics
- Ranking of Journals, Institutions, and Countries
- Discipline and Domain Analysis
- Economic factor
- Databases and datasets for evaluation
- Evaluation Tools and Indicators
- Web-based metrics
- Visibility and impact
- Internationalisation
- Text-based Metrics
- Innovation indicators
- Text based
- Wearable Devices
- Open data
- Download Scientific Collaboration and cooperation analysis
- National Evaluation Systems
- Open access and open publishing
- New indices for evaluation
- Altmetrics
- Web-based metrics
- Data Science and Digital Repositories
- Scientific Visualization
- e-Science in the Cloud
- Scientific Journalism
- Scientific Publications
- Scientific Knowledge Diffusion
- Research Data Access
- Co-working in Science
- Science, Innovation and Economic Performance
- Public Research Systems
- Future S & T Policies
- Translating Metrics to Science Policy
- Evaluation beyond metrics

All submitted papers will be reviewed by a double-blind (at least three reviewers) and participative peer review. The review process will enable selecting those who will be accepted for their presentation at the international conference. Authors of accepted papers who registered for the conference can access the evaluations and possible feedback provided by the reviewers who recommended the acceptance of their papers, so they can improve the final version of their papers accordingly.

Mentoring support is available to young researchers and authors from developing countries.

Please note that all submitted papers undergo review and editing by senior editors. We will take care of content enhancement and language editing. There is no fee for editing and language correction services.

Selected post-conference modified versions of the papers will be published in the following journals.

1. COLLNET Journal of Scientometrics and Information Management
2. Journal of Digital Information Management.
3. Performance Measurement and Metrics.
4. International Journal of Computational Linguistics Research

There is no further publication fee for the above journals.

The STMet 2026 has many co-located workshops.

### Proceedings

We publish the papers after restructuring and editing are complete. All the past conference papers are indexed in Google Scholar. The past STM proceedings are available with ISBN and DOI at

<https://dline.info/new/STMProceedings>

### Important Dates

Submission of Papers:	July 20, 2026
Notification of Acceptance/Rejection:	August 15, 2026
Camera-ready:	September 15, 2026
Registration:	September 15, 2026
Conference Dates:	October 02-04, 2026
Post Conference Proceedings:	November 15, 2026

### Keynote speakers

Dr. Professor MOTOHASHI Kazuyuki

Professor-Graduate School of Engineering  
University of Tokyo Japan

Dr. GRANT LEWISON FRSA

King's College London

Dr Professor ABRIZAH ABDULLAH FASc

Jabatan Sains Perpustakaan dan Maklumat  
Department of Library & Information Science  
Universiti Malaya, Kuala Lumpur, Malaysia

Contact: [stm@socio.org.uk](mailto:stm@socio.org.uk)

### General Chairs

Grant Lewison, King's College, UK

Valentina Markusova, The All-Russian Institute for Scientific and Technical Information, Russia

### Organization Chairs

Nuridin La ugu, Islam Negeri Sunan Kalijaga Yogyakarta, Indonesia

Erwin Halim, Bina Nusantara University – Indonesia

### Program Chairs

Pit Pichappan, Digital Information Research Labs, India & UK

Irvan Muliyadi, Universitas Islam Negeri Alauddin Makassar, Indonesia

### Co-Program Chairs

Amir Reza Asnafi, Shahid Beheshti University, Iran

Kazuyuki, Motohashi, University of Tokyo, Japan

Giovanni Abramo, National Research Council of Italy, Italy

### Co-Organizing Chairs

Retno Sayekti, Universitas Islam Negeri Sumatra Utara, Indonesia

Taufik Matthar, S. Pd., Universitas Islam Negeri Alauddin Makassar, Indonesia
